

THE DIVINE TRUTH

PART-II

Preface

"Allah is the Protector of those who have faith. From the depth of darkness He will lead them forth into light. Of those who reject faith the patrons are the Evil Ones: from light they will lead them forth into the depths of darkness. They will be the companions of the Hellfire, to dwell therein forever"

(Surah Baqarah, Verse No.256)

Love, knowledge, non-violence, peace and natural truth are the only way that leads man to ALMIGHTY DIVINE POWER. There exists no unnatural element in this uni- verse. All the actions-reactions are natural; even "the word, 'unnatural' is also based on Nature". ALMIGHTY's sympathy and blessings are showered only upon those who are enlightened with true knowledge. Only those are relieved from angst and agonies whose minds are satiated with peace; meaning ALMIGHTY" DIVINE POWER leads them from "darkness to light". The persons who even after attaining true knowledge and peace, get swayed by greed, material wealth and violence more than their desire, are drifted from light to darkness.

Each Qur'anic or any other religious verse gives the man and human society the lesson of knowledge, non- violence, love and humanity. The instinctive stream of the verses never gets affected by human character. The blazes

of violence can never burn these verses and these verses can never become the goal of human desires beyond his requirement. The ideal of the verses is ceaseless, eternal and infinite. Right from the inception of the universe to its end, its origin is sighted in every molecule-atom of the Nature.

The origin of these verses is truth and its law deserves to improve mankind and human society to the best. Every human being is morally bound to understand the depth of these verses and apply them in life as it's a complete spiritual lifeline for mankind. As I am morally obliged to disseminate the true attributive ideals in the whole humanity to meet the goal of chastity of the society, similarly everybody aspiring benevolence, love, non-violence and peace, is morally bound to do so. Whatever attributive ideals I have attained by the mercy and grace of Almighty Divine power, I have tried to explain them in my own words by understanding them well. Whichever words cropped up in my mind while explaining the verses, I have given them the written form.

"Allah is Self-sufficient and Praiseworthy"

(Surah Ibrahim, Verse No. 9)

Every creature praises ALMIGHTY but DIVINE POWER is not destitute of anything. Whatever mankind has been bestowed upon from the treasures of the Nature, its truth and goal bring progress and peace to mankind and human society. But the human idiocy keeps him unable to understand it. Somewhere, he affects his character and

inner-self with sins by deviating from his goal and turns fretful. Such human being gets deprived of the benefits which are attained through non-violence, love and humanity.

Whatever man possesses today and whatever he has got from the civilization evolution from its genesis, are all the marvels of human brain. The way the religion has been taken in till today, neither mankind nor the human civilisation has benefited from it. If any gentry have been benefited from the religion, they are none other than religious leaders. They made it (religion) their business by selling concocted stories and cajoling talks. By making the invisible existence of AIMIGHTY as their shibboleth, they tried to maintain their hegemony among the people, thereby thrusting the human society into the mire of immoralities. To rid the human society of such conspiracy and to explain the religion through scientific laws, the Chaste-Cherisher has implanted in my mind such secrets of the religious books, which will disseminate the virtues of non-violence, love and humanity among the people and human society.

"Allah will choose for His special Mercy whom he will" (Surah Baqarah, Verse No.105) The human society has mostly been benefited from science. The mankind and human civilisation could attain peace and progress by adopting the straight and righteous path of AIMIGHTY. The goal of peace and progress is assailed through the boat of religion only.

Waters of all - be it of rivers, channels and canals finally pour into the ocean. Similarly, the prayer with the call of truth, love, and the prayer which is purged of all illegitimacy and dishonesty and which does not cause any harm to or any society or to the praying person per se ultimately reaches out to God. No matter how - much it is argued and debated, this is the only truth right from the inception of the universe to till now and the Holy Qur'an also substantiates it (22/67).

A chaste man calls the people towards chastity, truth and knowledge only. He makes the act of spreading peace his goal which is very much beloved to ALMIGHTY. NATURE OR DIVINITY dislikes the mischief mongers. In the Qur'an illuminates that every soul is responsible of his religion and deeds (109/6) and He also elucidates that there is no scope of using force therein religion]

(2/256). Emphasis is laid on having belief in all the Messengers (3/84, 2/136) so that there does not erupt violence in the name of the people (community) and it is also described that there were sent among the people, the Messengers, who are called Avatars (the incarnations) in Sanskrit (16/36, 14/4), and Rasul in Arabic.

2 Man's first moral obligation is to love ALMIGHTY" DIVINE NATURE and His creations and recognise their veracity; and why is it needed to do so? By nature, ALMIGHTY has endowed man with the sense to distinguish between vices and virtues as even a 5-year old child can also understand that telling lie and theft are sins. When a child

steals anything, naturally he tries to hide it. It's a very shallow matter and everybody knows it. Religious (Divine) books are not meant for teaching the mankind all about such trivial things as Nature itself teaches the humanity all these basic things. Religious books show that right path to humanity which helps man to attain peace through true knowledge, non-violence and love.

Religion is such a thing as man himself adopts it in his inner-self and that is his conscience, not his costume or lifestyle. And to maintain the chastity and peace of this conscience, ALMIGHTY revealed (through His Messengers) His divine (religious) books to human society, based on truth and manifest form, but the mischief-mongers do not understand it at all. ALMIGHTY is the source of true knowledge and joy.

Why does the human exist in this world? Why does human live in this world and die? The creation of the human being is the best creation. No other creature can relish and benefit from the Nature as much as mankind. Even an animal understands what is right and what is wrong for it, but man does not realise the fact that he can understand the Nature in the best way by gaining knowledge and bringing peace to his life, and thus, he can enjoy it well. Nature has blessed the best brain (intellect) to man, yet he gets swayed by violence, excess of greed, envy and obsession - why is it so? The Nature has blessed mankind a colourful life by keeping each aspect with its reverse aspect and NATURE is the Master of all thoughts and notions.

The thoughts about the Qur'anic verses which came into my (Siddhartha Chatterjee) mind are also from Almighty's DIVINE POWER. Whether anybody understands them or not, likes them or not- all these take place by the Will of ALMIGHTY. Creating thoughts in the mind, implement them, or even obliterate them (from the mind) - all these are scripted by Almighty, and the difference in thoughts also gets implemented in accordance with the law of the Nature. According to the law of the Universe, changes are sure to occur with the passage of time and nobody can go beyond this law.

"Say you, 'I am not a novel messenger and I know not, what shall be done with me and with you. I only follow what is revealed to me. And I am not but a plain warner"

(Surah Ahqaf, Verse No.9) While addressing the Chaste Prophet, the Almighty said that the Messengers' duty pertains to disseminate the message among the people. And then, it is people's personal streak as to how inclined and steadfast they are found in accepting the truth. When the truth which the Chaste Prophet disseminated among the people and the virtuous facts which all the Messengers brought to the people and made them understand, the people continued to be away from those virtues in course of time, and then by Almighty's will, I considered it my moral obligation to convey this truth to the people. And it's a humble effort to alleviate the surge of hatred and violence among the people.

The explanations of such Qur'anic verses as Surah

Fatiha, Surah Baqarah, are being published in "Divine Truth Part-II"(ENGLISH). As soon as the explanations of other verses get completed, I will carry on my endeavours to publish them considering it as my moral duty. Gradually, publication of other mysteries of the Qur'an will also continue to be in process.

Religion maintains discipline in human inner-self but when the man's inner-self gets affected by immoralities, the immoralities expand their existence in human brain while growing up above the religious ideals, and when the dejection causes (to man) in the condition of non-fulfilment of human desires, immoralities become his goal. Thus, by ignoring the basic ideals of the religion, man starts regarding immoralities as his religion. Discussions or customs become more important for him. Then salient messages of religion hold no water for him. For example, it will be vitally important to define the Qur'anic Verse No. 10 of Surah Tahrim which goes as thus: "God sets forth an example to those who disbelieve: the wife of Noah and the wife of Lot, they were both under two of Our righteous servants, but they acted treacherously towards them so they availed them naught against God, and it was said: Enter both the fire with those who enter."

ALMIGHTY gave the example of a Believer in the form of Pharaoh's wife when she beseeched: "O Allah! Please build a house for me in the Heaven and provide protection to me and protect me from their cruelties and character and protect me from this barbaric group". In the

first verse, the wives of Prophet Noah and Prophet Lot are called Infidels whereas the husbands of both the women were Allah's Messengers (PBUT). That's why the word, "Infidel" denotes a human character; it doesn't matter whether it pertains to a Messenger's wife or this word does not affect the one whether hailing from a specific group or not. In the same way, in the second (aforesaid) verse, the wife of the barbaric king Pharaoh is given the status of a Believer because she was the follower of chaste and peace-loving humanity.

Forgiveness, love, non-violence, humanity, chastity, peace, mercy, affection, brotherhood the Nature has bonded the mankind in relations by putting all these virtues in human mind, and thus, human creation came into effect by establishing these relations only. Violating these virtuous words is tantamount to violating the ideals of Almighty. Therefore, no religion allows acting upon anything by going against these ideals. Complying with the ideals of these words is actually prostrating before Almighty and man is taught this virtue by religious books.

My motive is not to elevate or denigrate anybody's status. I have tried to explain only those verses, thoughts of which Almighty has put into my mind. I apologise for the mediocre diction of my language as expressed herein since I have explained the verses in the way as and when whichever type of language clicked to my mind.
